Profession

Wordpress Developer

Working as a WordPress Developer since 2025.

SEO Expert

Expert in On Page & Technical SEO and Website Optimization.

Basic Computer Languages

Basic knowledge of Markup languages i.e HTML, CSS.

Programming Language i.e Java Script

I'm a WordPress website developer with experience in creating clean, responsive, and user-friendly websites for different types of clients. I specialize in on-page SEO and help websites rank better on search engines by improving their structure, content, and performance. I also write SEO based blog posts and website content that's clear, engaging, and optimized for search.

In addition to WordPress, I have a basic understanding of computer languages like **HTML**, **CSS**, and **JavaScript**, which helps me customize websites and improve their functionality when needed.

My goal is to build websites that not only look good but also help businesses grow online. I enjoy learning, problem-solving, and creating digital solutions that make an impact.
